

Clean Seed Capital Advances Harvest International Acquisition

March 1, 2019 - Vancouver, British Columbia

Dear Shareholders:

I am pleased to report that over the past several months Clean Seed has worked closely with Harvest International to complete its extensive due diligence program. The collaborative nature of this acquisition has resulted in a robust strategic plan that we believe will fast-track market share growth in the U.S. and increase our offerings in Canada. The due diligence process has solidified our collective resolve to become the first new entrant into the U.S. planter market in 25 years, allowing us to disrupt the current balance of power in the industry.

We are pleased to provide the following updates:

- **Approved** debt funding in the amount of approximately **\$9.2 million** CDN (\$7.1 million USD) (subject to the satisfaction of certain conditions) towards the purchase of Harvest International from Farm Credit Canada (**FCC**).
- With **FCC funding conditionally secured**, we are **advancing** operating line discussions for **\$3.1 million** CDN from a Canadian chartered bank with an active U.S. presence. We expect our discussions to advance towards application approval in the next thirty days.
- **Entered into a (LOI) letter of intent** with an American multinational information technology company to integrate (AI) Artificial Intelligence data analysis tools into the company's SMART Seeder / Planter technology software platforms. This technology company has operations in all major seeding and planting marketplaces.

Clean Seed is in the final phase of financing and is actively engaging with investment institutions to raise the remaining funds to complete the transaction. Clean Seed and Harvest International have agreed to extend the closing date of their agreement to April 15, 2019 to provide sufficient time to complete financing activities and facilitate closing of the transaction.
